

Amendments to the Drawings:

The attached replacement sheet 20/56 of the drawings include corrections of the indication lines with regard to appropriately relating the reference numerals 48 and 49 to the respectively corresponding polysilicon film layers and relating reference numeral 61 to the PMOS transistor gate in Fig. 23.

Attachments:

Replacement Sheet 20/56 directed to Fig. 23 of the Drawings;

Annotated Sheet showing the corrections made to Fig. 23.

Remarks

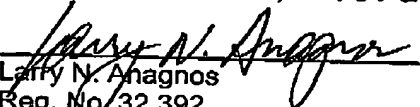

A minor revision is being effected in allowed claim 131 for purposes of removing an unnecessary reference character therein. It is submitted, this change is of an editorial nature strictly directed to matters of form. Acceptance/entry of the same is respectfully requested.

The changes proposed to Fig. 23 of the drawings are for purposes of obviating minor informalities therein. Namely, the indicator lines of the reference numerals 48, 49 and 61 in Fig. 23 are being revised so as to relate the reference numerals 48 and 49 to the appropriate film layers. As can be seen from the annotated showings, the corrections effected now show reference numerals 48 and 49 as relating to the appropriate polysilicon films and also shows reference numeral 61 as relating to the PMOS transistor gate in Fig. 23. The corrections effected are consistent with that shown, for example, in Figs. 22 and 24 of the drawings and the related discussion beginning on page 68, the second full paragraph of the Substitute Specification, such as it relates to Figs. 22-24 of the drawings.

It is submitted, the drawing amendments herein are strictly to correct discovered informalities, as described above. Acceptance and formal entry therefor of the accompanying replacement sheet 20/56, directed to Fig. 23 of the drawings, is respectfully requested.

If any costs are due in connection with the filing of this paper, please charge the same to the deposit account of Antonelli, Terry, Stout & Kraus, LLP, Account No. 01-2135 (501.42645VX1) and any excess fees credited to that account.

Respectfully submitted,
